Supplemental Questionnaire for Teaching Extension
(Teaching Extension not required if you are teaching Yoga/Qi Gong/Tai Chi and you are not certifying students for teaching the modality to others)

Teaching definition: any teaching to certify and/or qualify another to treat others.

Your policy does not extend coverage to the actions of your students. Examples of this would be,
i) a student injuring another student during practical lessons,
ii) a student or graduate causes harm to a patient and an allegation is made that the damages were in whole or in part as a result of insufficient or deficient lessons.

1. If you wish to add the ***Teaching Extension*** to your policy, please complete the questionnaire below and return it to Preventative Health. This extension offers you protection for such occurrences, but does not protect the student's interest.

2. Alternatively, we have made provisions that students may join the insurance program once they have completed the non-practical portion of the course. The policy would provide them with the same level of protection as your current policy.

3. Lastly, waivers can be obtained from the students, prohibiting them from taking action against you. While these forms are not foolproof and don't prevent persons from initiating legal actions against you, they are strong considerations for the courts.
